SAFETY STATEMENT, DISCLOSURE AND STUDENT AGREEMENT

We (The academy of Industrial Arts (TAIA), its affiliates and partners) will maintain a safety program conforming to the best practices of organizations and programs of this type. To be successful, such a program must embody the proper attitudes toward injury prevention on the part of students, instructors, program partners and affiliates and employees of all partner organizations. It also requires cooperation in all safety matters, not only between students and instructor(s), but also between each employee of program partners and TAIA school affiliates. Only through such a cooperative effort can a safety program in the best interest of all be established and preserved. Students are responsible for compliance with all rules and regulations and for continuously practicing safety while performing their performance tasks, lab projects and job-site visits and contractor-ride-alongs. (TAIA) Students agree to wear protective equipment and devices that will be provided to them in specified work areas and jobsite visits.
